DETAILED ACTION

Allowable Subject Matter

Claims 1 – 26 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art does not disclose a method or system for adjusting the depth of modulation of a video signal comprising the steps of detecting the amplitude of a comparison portion of a video signal, normalizing the comparison portion amplitude according to a reference level, detecting a reference portion of said video signal having an amplitude at the reference level in said video signal, generating a first error signal corresponding to a difference between the normalized comparison portion amplitude and the reference portion amplitude and adjusting a depth of modulation of the video signal in response to the first error signal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
